

# VIKTORIIA KYRYLISHYNA

## Computer Engineering Student (Web Technologies)

+48 798 751 029 | kyrylishynaviktorii@gmail.com | Warsaw, Poland

### SUMMARY

Motivated Front-End Developer seeking an internship opportunity to apply practical skills in HTML, CSS, JavaScript, and basic web application development. Currently in the 3rd year of a *Computer Engineering (Engineering of Web Technologies)* program at Vistula University. Experienced in building responsive interfaces, implementing simple REST APIs, and working with relational databases. Strong background in team coordination, operations management, problem-solving, and data analysis, gained through leadership experience as a Swing Manager. Ready to contribute to a development team, learn modern workflows, and grow into a junior front-end role.

### PROFESSIONAL EXPERIENCE

#### Swing Manager

McDonald's Polska — Warsaw | (2023 – Present)

#### Key responsibilities relevant to tech roles and teamwork:

- Coordinated daily operations, work schedules, and task delegation across shifts.
- Ensured quality control, food safety standards, and process optimization.
- Troubleshoot and resolved issues with kitchen and POS systems, applying logical problem-solving.
- Analyzed sales and operational data to forecast product needs and reduce shortages.
- Managed product inventory through internal systems and performed stock planning.
- Handled customer escalations with professionalism and solution-oriented communication.
- Provided onboarding, mentoring, and performance guidance to new employees.
- Maintained fast-paced workflow while upholding accuracy and efficiency.

### EDUCATION

Vistula University, Warsaw (Expected Graduation: 2026)

**B.Eng. in Computer Engineering | Specialization: Engineering of Web Technologies**

#### Relevant Coursework & Areas of Knowledge:

- Web Technologies (XHTML, CSS3, JavaScript)
- Software Engineering & IT Project Management
- Database Engineering (MySQL)
- Programming (C#, Java, JavaScript)
- Computer Networks & Cybersecurity Basics
- Artificial Intelligence & Machine Learning (intro level)

## TECHNICAL SKILLS

### Front-End Development:

HTML5, CSS3, JavaScript, Responsive Design, Accessibility Basics, DOM Manipulation, Mobile-First Development

### Web & Software Tools:

Git, GitHub, VS Code, Node.js (basics), REST API basics, MySQL, JSON (basics)

### Soft Skills:

Team collaboration, Leadership, Task prioritization, Customer service, Problem-solving, Adaptability, Communication

---

## PROJECTS

### I. Portfolio Website

#### HTML, CSS, JavaScript

- Developed a fully responsive personal portfolio to showcase projects and skills.
- Implemented a contact form integrated with Google Sheets for real-time data collection.
- Applied mobile-first principles, semantic HTML, and clean UI layout structure.

### II. Mini CRUD (University Project)

#### Node.js, Express, MySQL, HTML, CSS, JavaScript

- Built a simple REST API for handling data operations.
  - Designed and connected a relational MySQL database for structured data storage.
  - Created a basic front-end interface to display and interact with API data.
  - Practiced MVC-like structure, routing, and CRUD operations.
- 

## INTERNSHIP GOAL

Seeking a Front-End Developer Internship where I can contribute to UI implementation, assist with web feature development, and learn modern tools such as React, TypeScript, Git workflows, agile processes, and API integration within a professional development team.

## LANGUAGES

*English* – Intermediate

*Polish* – Upper-Intermediate

*Ukrainian* – Native
